D-LINK DSR-500N WIRELESS N ROUTER PROVIDES SMB WITH A RELIABLE HIGH-SPEED NETWORK SOLUTION

Dual WAN Ports and SSL VPN Provide Small to Medium Businesses (SMBs) with High Availability Network Services and Secure Mobile Connectivity

SYDNEY, Aust. – January 31, 2011 – D-Link Australia & New Zealand, the end-to-end networking solutions provider for business and consumers, today introduced the DSR-500N Wireless N Router with SSL VPN, a secure, high performance wireless networking solution addressing the growing needs of small to medium businesses.

The D-Link® DSR-500N's integrated high-speed IEEE 802.11n wireless technology offers comparable performance to traditional wired networks, but with fewer limitations. Its broad range of security features also provide remote network access to mobile users and branch offices via secure VPN tunnels.

"D-Link's latest Wireless N Router with SSL VPN is designed for small to medium businesses looking for a high-performance wireless networking solution with secure remote access," said Maurice Famularo, Marketing Director, D-Link Australia & New Zealand. "The DSR-500N's dual Gigabit WAN ports also support high availability network services including WAN load balancing and failover."

The DSR-500N offers dual-WAN Gigabit Ethernet which provides policy-based service management for high availability – ensuring maximum productivity for business operations. The failover feature maintains data traffic without disconnecting when a landline connection is lost. The Outbound Load Balancing feature adjusts outgoing traffic across two WAN interfaces to optimise system performance. The second WAN port can also be configured as a DMZ port to isolate servers from the LAN.

Designed to deliver superior wireless performance, the DSR-500N includes 802.11 b/g/n support with Multiple In Multiple Out (MIMO) technology allowing the DSR-500N to provide high data rates with minimal "dead spots" throughout the wireless coverage area. The new Wireless N Router also includes four Gigabit Ethernet LAN ports and a USB port for wired connections, supports IPv6 and features an internal power supply.

A fully featured virtual private network (VPN) provides mobile workers and branch offices with secure network access. The DSR-500N supports up to 35

simultaneous VPN tunnels using IP Security (IPSec) Protocol, Point-to-Point Tunnelling Protocol (PPTP), or Layer 2 Tunnelling Protocol (L2TP) to facilitate branch office connectivity through encrypted virtual links. The DSR-500N is also capable of simultaneously managing 10 Secure Sockets Layer (SSL) VPN tunnels.

The DSR-500N features D-Link Green™ Technology including D-Link Green WiFi and D-Link Green Ethernet to save power and prevent waste. The D-Link Green WLAN scheduler reduces wireless power automatically during off-peak hours. Likewise the D-Link Green Ethernet program adjusts power usage based on the detected cable length and link status. In addition, compliance with RoHS (Restriction of Hazardous Substances) and WEEE (Waste Electrical and Electronic Equipment) directives make D-Link Green certified devices the environmentally responsible choice.

The DSR-500N comes with limited lifetime warranty including 24-hour advanced warranty replacement.

Price and Availability

The D-Link® DSR-500N Wireless N Router with SSL VPN is available now with recommended retail prices of AU$465 inc. GST and NZ$649 inc. GST.

About D-Link

D-Link is the global leader in connectivity for small, medium and large enterprise business networking. The company is an award-winning designer, developer and manufacturer of networking, broadband, digital electronics, voice, data and video communications solutions for the digital home, Small Office/Home Office (SOHO), Small to Medium Business (SMB), and Workgroup to Enterprise environments. With millions of networking and connectivity products manufactured and shipped, D-Link is a dominant market participant and price/performance leader in the networking and communications market.

D-Link Australia and New Zealand headquarters are located at Building A, Level 3, 11 Talavera Road, North Ryde, NSW, 2113, Sydney Australia. Phone (02) 8899 1800; Fax (02) 8899 1868; Internet www.dlink.com.au / www.dlink.co.nz; email marketing@dlink.com.au.
