## **D-LINK INTRODUCES DUAL-BAND WIRELESS N OUTDOOR DIRECTIONAL ANTENNA ANT70-1400N**

*With up to 3km range, ideal for extending LANs between two remote locations*

**SYDNEY, Aust. – May 4, 2010** – D-Link Australia & New Zealand, the end-to-end networking solutions provider for business and consumers, today introduced a new dual-band Wireless N outdoor antenna ideal for point-to-point wireless connectivity requiring high gain over long distances.

The D-Link ANT70-1400N Triple Polarization Dual-Band Directional Antenna is an outdoor antenna for connecting 2.4 or 5GHZ wireless LANs with support for the latest high-speed 802.11n wireless networking standard. It has three antenna connectors for transmitting three spatial streams up to 3km, making it ideal for operating in modes such as point-to-point Wireless Distribution System (WDS) and others that require a high gain directional antenna.

“D-Link’s new dual-band Wireless N outdoor antenna is a cost-effective alternative to a physical connection for organisations looking to extend their local area network by connecting two remote locations,” said Maurice Famularo, Marketing Director for D-Link Australia and New Zealand. “Wireless Internet subscribers can also use this antenna to establish a high-speed connection to their service provider’s outdoor access points.”

The ANT70-1400N features a durable build and a waterproof design which provides complete protection from extreme weather. Made from corrosion-resistant material to withstand harsh outdoor conditions and wind speeds up to 216kph, it is robust enough to remain outside indefinitely.

For easy installation, the ANT70-1400N antenna includes a pole mounting kit for better wireless coverage. It also comes equipped with an indoor adapter cable fitted with N-type and RP-SMA connectors for easy connection to host systems.

### **Price and Availability**

The D-Link ANT70-1400N Triple Polarization Dual-Band Directional Antenna is available now with recommended retail prices of AU\$499.95 inc. GST and NZ\$693.00 inc. GST.

For more information, see D-Link's websites at [www.dlink.com.au](http://www.dlink.com.au) and [www.dlink.co.nz](http://www.dlink.co.nz).

## END OF ANNOUNCEMENT

### **About D-Link**

D-Link is the global leader in connectivity for small, medium and large enterprise business networking. The company is an award-winning designer, developer and manufacturer of networking, broadband, digital electronics, voice, data and video communications solutions for the digital home, Small Office/Home Office (SOHO), Small to Medium Business (SMB), and Workgroup to Enterprise environments. With millions of networking and connectivity products manufactured and shipped, D-Link is a dominant market participant and price/performance leader in the networking and communications market.

D-Link Australia and New Zealand headquarters are located at Building A, Level 3, 11 Talavera Road, North Ryde, NSW, 2113, Sydney Australia.
