

# DI-704P Screen Captures (Silver Colour)

H/W: B1 FW: 2.61 b1

## Setup Wizard

Welcome to the DI-704P Setup Wizard. The Wizard will guide you through these three quick steps. Begin by clicking on **Next**.

Step 1. Set your new password

Step 2. Set Internet connection

Step 3. Restart

Next

Exit

## Setup Wizard

### Set Password

You may change the **admin** account password by entering in a new password. Click **Next** to continue.

Old Password

Exit

## Setup Wizard

### Select Internet Connection Type (WAN)

Select the connection type to connect to your ISP. Click **Next** to continue.

- |                                  |                                      |  |
|----------------------------------|--------------------------------------|--|
| <input type="radio"/>            | Static IP Address                    | ISP assigns you a static IP address.   |
| <input type="radio"/>            | Dynamic IP Address                   | Obtain an IP address from ISP automatically.   |
| <input checked="" type="radio"/> | Dynamic IP Address for BigPond Cable | Obtain an IP address from ISP with Heartbeat Management.(e.g. Telstra BigPond Cable) |
| <input type="radio"/>            | PPP over Ethernet                    | Some ISPs require the use of PPPoE to connect to their services.                     |
| <input type="radio"/>            | PPTP                                 | Some ISPs require the use of PPTP to connect to their services.                      |

Back

Next

Cancel

Exit

## Setup Wizard

### Set Dynamic IP Address

The **Clone MAC Address** button is used to copy the MAC address of your Ethernet adapter to the DI-704P. If your ISP requires you to enter a specific host name or specific MAC address, please enter it in. Click **Next** to continue.

MAC Address

Account

Password

Login Server

(optional)
