

# Starter Pack

## DIS-101

### Installation Services

#### In-Home Network Installation

- Connect up to 2 PCs  
(Desktop and/or Laptop)
- Install 2 D-Link Network Adapters  
(One for each PC)
- Connect a D-Link Router to either a DSL or Cable Modem
- Configure File Sharing
- Perform Standard Testing

*Whether you are new to home networking or just don't have the time, we have a one-stop solution for you. D-Link's Installation Services is fast & convenient, and as simple as a phone call or mouse click away.*

*All you have to do is schedule an appointment with one of our professional technicians and they will set up your wired or wireless D-Link products that you have purchased and ensure your network is up and running within 72 hours of your call. We are also available to answer any of your questions through our toll free technical support line.*

*Home networking couldn't be simpler with D-Link's Installation Services!*

*Other D-Link Installation Services\*:*

**DIS-102 Extras Pack** - Add extra PCs or devices to the **DIS-101**

**DIS-103 Future Pack** - Future proof your network.

Purchase this when you need to add extra D-Link hardware to your existing network after the initial Network Installation.

\*Only Available in Australia
