DIS-102

*Installation*Services

In-Home Network Installation

(Add-On for DIS-101)

*Required to be purchased in conjunction with DIS-101 Starter Pack

- Connect an Additional PC
(Desktop and/or Laptop)
- or Connect an Additional Printer
- or Connect a D-Link Wireless Access Point or Router
- or Connect a D-Link Internet Video Camera or VideoPhone
- or Connect a Gaming Console

This package is ideal for both the home consumer and small office/home office (SOHO) markets. It is targeted at customers who are buying multiple home networking devices. D-Link Installation Services are designed to provide you with increased flexibility, meeting the unique needs of this market.

An additional device could include a PC, printer, wireless access point, broadband videophone, internet camera, integrated fax/phone/scan device, etc. It includes the connection of a PC and printer, but not the installation of a PC or printer.

Other D-Link Installation Services:*

DIS-101 Starter Pack - Get your Home Network up and running with the least bit of fuss. Share files and the Internet.

DIS-103 Future Pack - Future proof your network. Purchase this when you need to add extra D-Link hardware to your existing network after the initial Network Installation.

*Only Available in Australia
