

Future Pack

DIS-103

*Installation***Services**

In-Home Network Installation (Stand-Alone Service)

- Connect an Additional PC
(Desktop and/or Laptop)
- or Connect an Additional Printer
- or Connect a D-Link Wireless Access Point or Router
- or Connect a D-Link Internet Video Camera or VideoPhone
- or Connect a Gaming Console

This package is ideal for both the home consumer and small office/home office (SOHO) markets.

You may want to add an additional device at a later point after your home network has been installed. For example, you may have a wired home network and want to add a laptop with a wireless connection.

This would involve connecting a wireless access point and a wireless network adapter.

Home networking couldn't be simpler with D-Link's Installation Services!

Other D-Link Installation Services:*

DIS-101 Starter Pack - Gets your Home Network up and running with the least bit of fuss.
Share files and the Internet.

DIS-102 Extras Pack - Add extra PCs or devices to the **DIS-101**

*Only Available in Australia
