

10000mAh Power Bank with USB-C and USB-A Ports

DPP-101

Portable Power for Your Laptop, Phone, and More

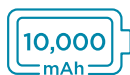

The D-Link 10,000mAh Power Bank DPP-101 offers 18W fast charging for devices like laptops and phones. With a high capacity, it powers up your iPhone X up to 2.5 times, or an iPad Mini/ Nintendo Switch up to 1.5 times*. Its two-port design supports simultaneous charging, while safety features ensure efficient power anytime, anywhere.

- A portable powerhouse with high 10,000mAh power supply capability
- Built-in intelligent digital display shows the remaining power in digital format
- Compatible with PD 3.0 and QC 3.0 for fast power supply
- Supports various power outputs with a maximum of 18W power supply
- Designed with advanced protection features: overcurrent, overvoltage, overcharge, overtemperature, and short circuit protection
- Sleek and lightweight design that easily slips into your pocket, allowing you to carry it anywhere
- Charge all your smart and portable accessories safely and efficiently, anytime and anywhere, so you can stay ahead of your schedule

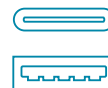

18W Fast Charging

Fast charge your laptop, phone and more with up to 18W PD3.0 QC3.0 input/ output

10,000mAh High Capacity

Stay powered with confidence - Charge an iPhone X up to 2.5 times, or an iPad Mini / Nintendo Switch 1.5 times*

USB-C x 1 / USB-A x1

Features USB-C x 1 and USB-A x 1 to charge 2 devices simultaneously

Digital LED Display

Monitor battery power with precise battery capacity

Overcurrent/ Overvoltage Protection

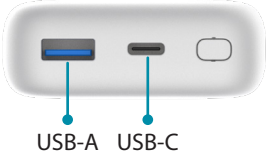

Power supply is disabled in the event of errors caused by overcurrent, overvoltage, overcharge, or short circuits

Energy Efficiency

Standardised fast charge technologies promote efficient charge, saving time while reducing energy waste

10000mAh Power Bank with USB-C and USB-A Ports
