

D-Link® Quick Installation Guide

D-ViewCam

Central Management
Software for SecuriCam

System Requirements

- Microsoft Windows 2000 Professional SP4, Windows XP Professional SP1, or Windows XP Home Edition SP1
- Pentium 4 2.0 GHz or above, at least 256 MB RAM, 100MB free hard disk space or above
- Network: 10/100 Mbps Ethernet
- Display card: nVidia, TNT2, or GeForce with at least 32 MB display memory
- A CD-ROM drive

Check Hardware Requirement

If you are using D-ViewCam to monitor multiple D-Link Internet cameras, it is recommended to meet these minimum system requirements.

[Note] Recording video over a long period of time will consume large amounts of disk space. Make sure that you have at least required disk space available. You can still complete this installation even if you have less than suggested free disk space.

For 1 to 4 channels:

CPU: Intel P-4 2.8G Hz or above

SDRAM: 512MB Memory

Hard Disk: 40GB or above

For 5 to 9 channels:

CPU: Intel P-4 2.8G Hz or above

SDRAM: 512MB Memory

Hard Disk: 60GB or above

For 10 to 16 channels:

CPU: P-4 3.0 G Hz or better processor

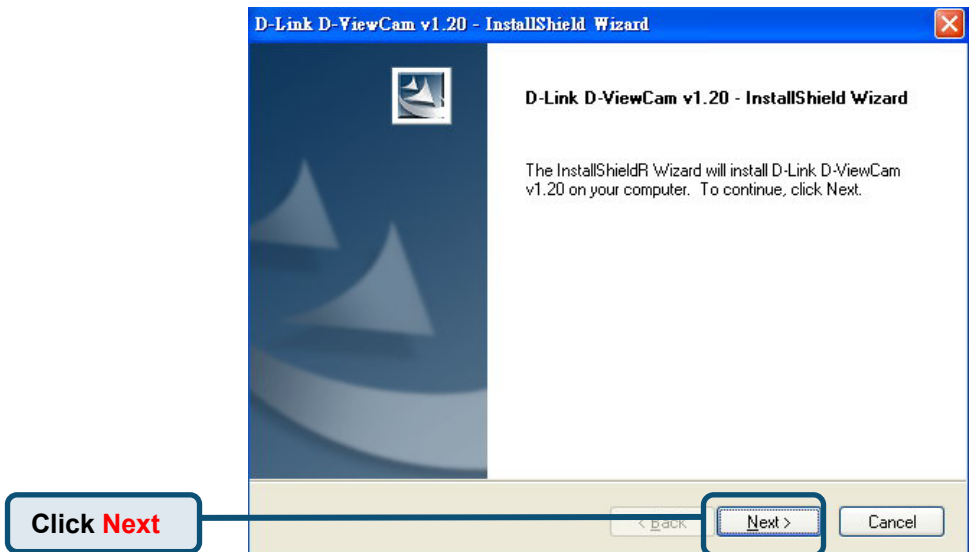

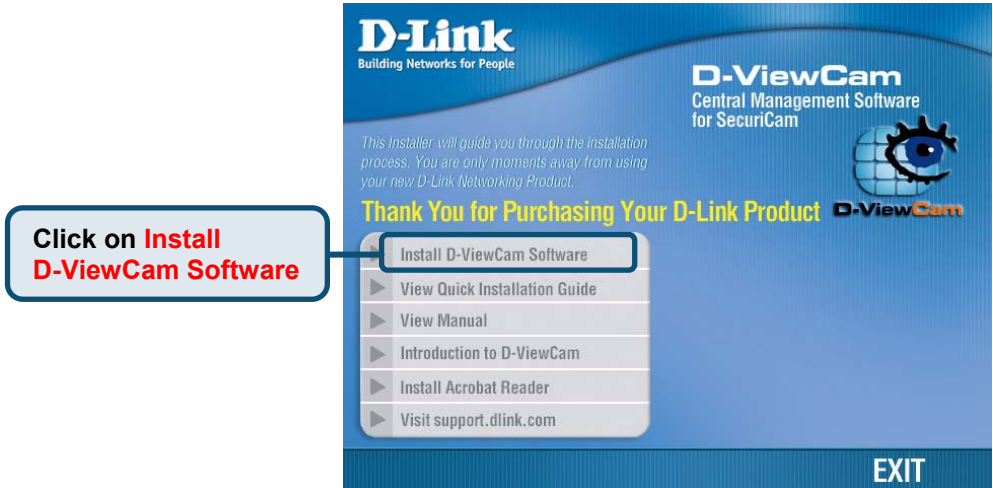

SDRAM: 1G Memory

Hard Disk: 80GB or above

1

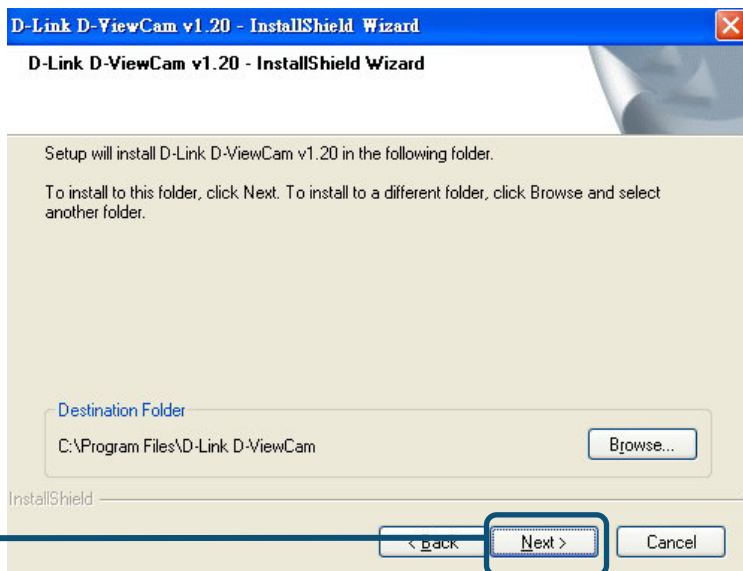

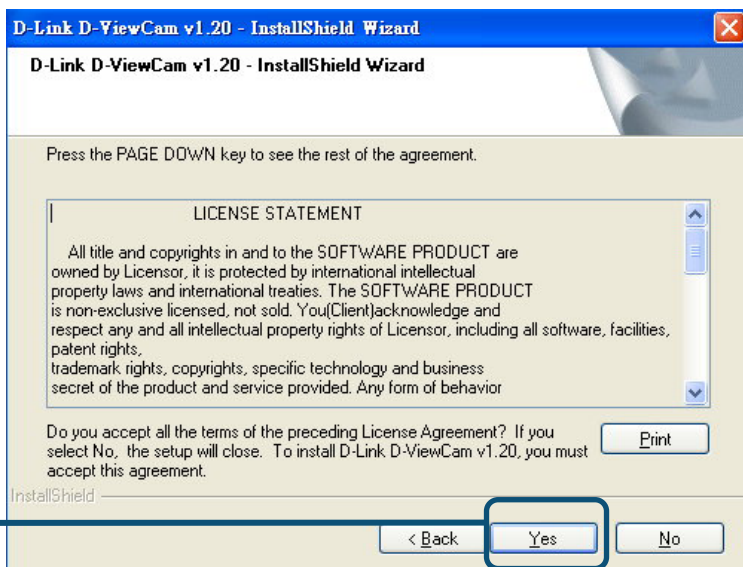

Installing the D-ViewCam Software

Insert the D-Link D-ViewCam software CD into your CD-ROM drive.

1

Installing the D-ViewCam Software (continued)

D-Link D-ViewCam v1.20 - InstallShield Wizard

D-Link D-ViewCam v1.20 - InstallShield Wizard

Setup will add program icons to the Program Folder listed below. You may type a new folder name, or select one from the existing folders list. Click Next to continue.

Program Folder:

Existing Folders:

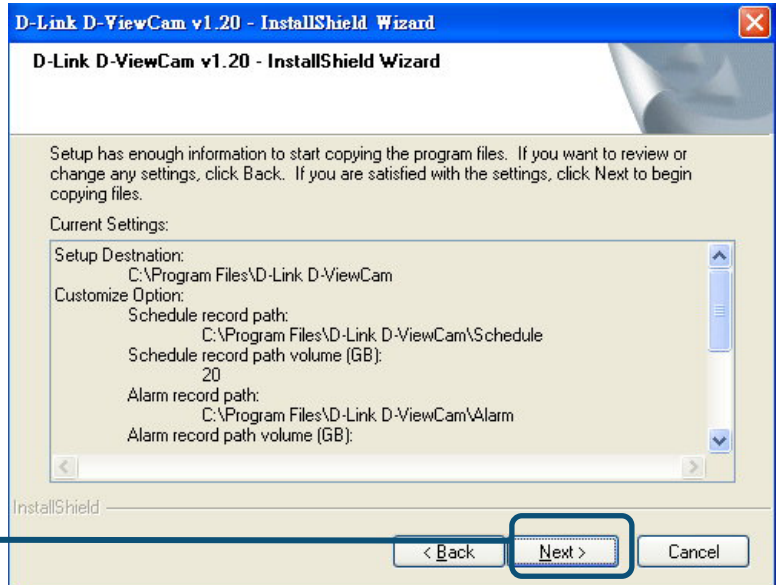

- CyberLink Medi@Show
- CyberLink PowerDVD
- iTunes
- Microsoft Office 工具
- MUSICMATCH
- Nero
- QuickTime
- Real
- Skype

InstallShield

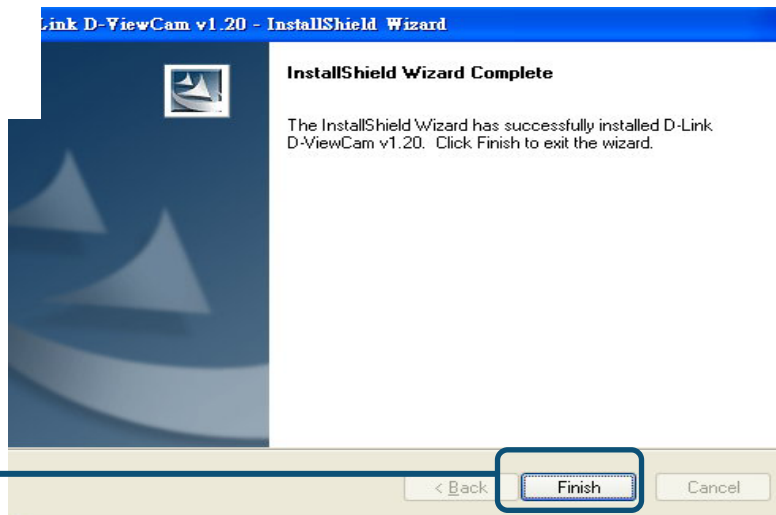

Click Next

1

Installing the D-ViewCam Software (continued)

Click **Finish**, and the system will activate D-Link D-ViewCam.

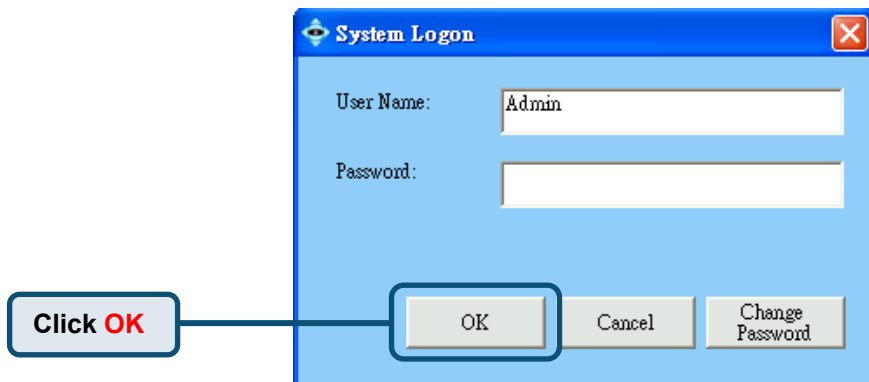

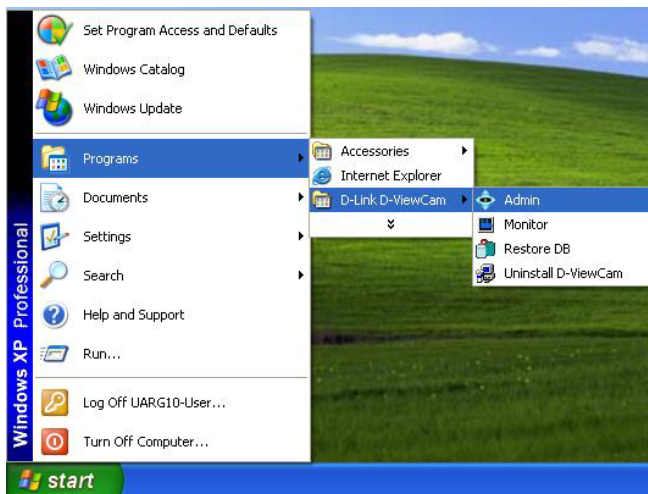

Congratulations! You've successfully installed D-Link D-ViewCam.

2

Configuring your Camera with D-ViewCam

Run Start > All Programs > D-Link D-ViewCam > Admin

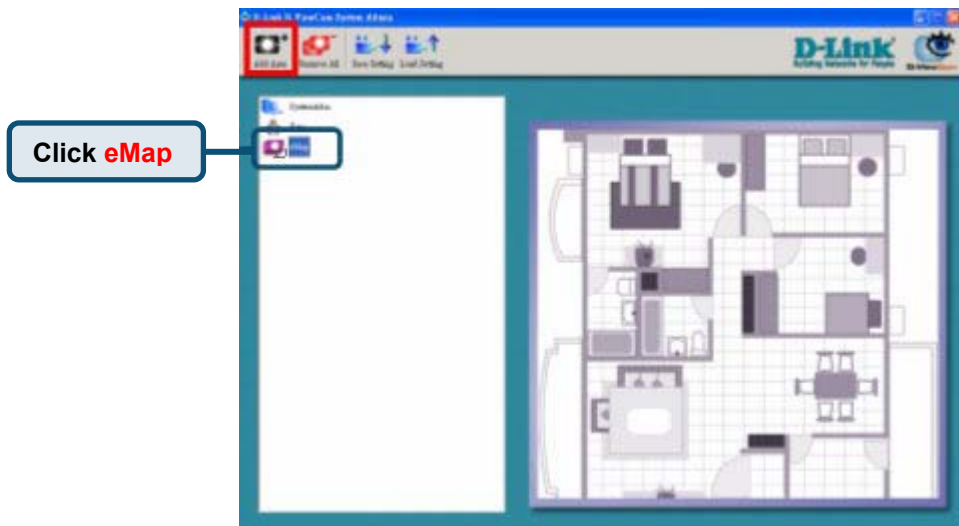

There is no password for Admin's account by default, please assign the Admin password by click on "Change Password."

2

Configuring your Camera with D-ViewCam (continued)

Click **eMap** on the tree structure and the **Add Area** icon in menu bar.

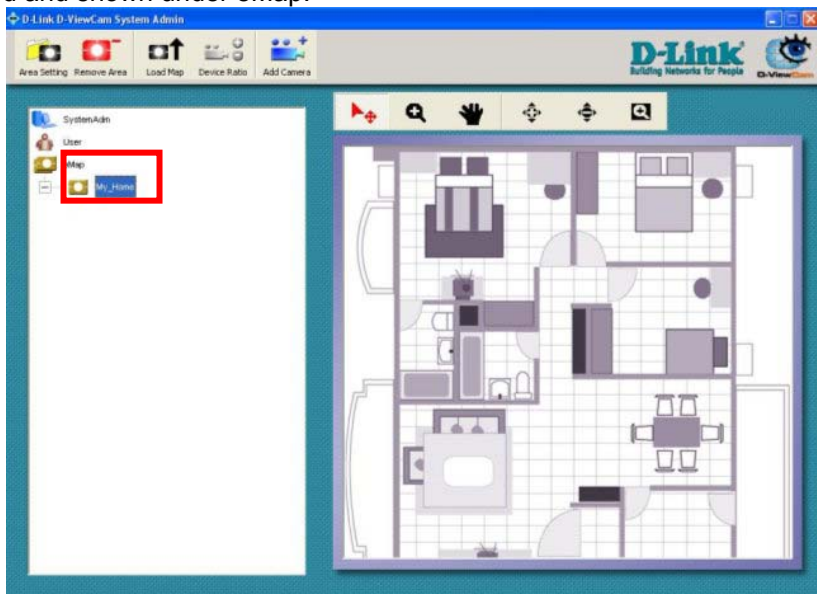

Enter the 'Area Name' and click **OK**.

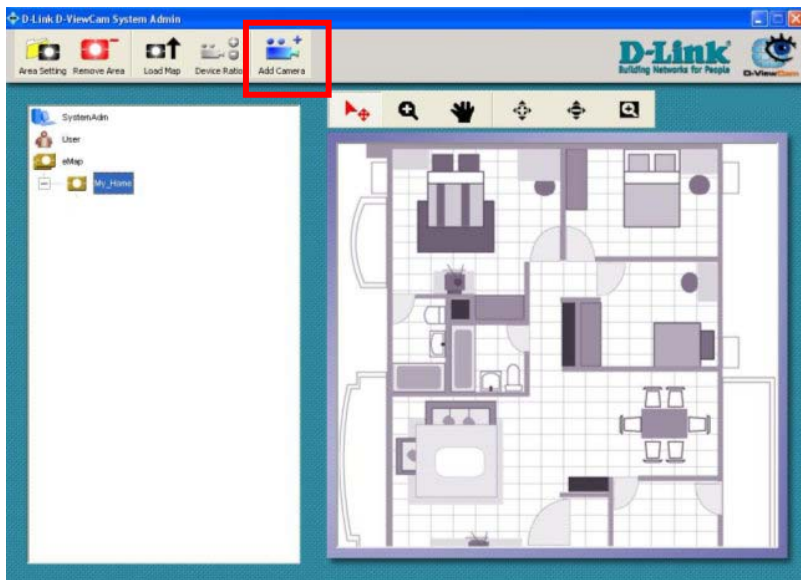

2

Configuring your Camera with D-ViewCam (continued)

An area is created and shown under eMap.

Click the **Add Camera** icon in menu bar.

2

Configuring your Camera with D-ViewCam (continued)

For **Model**, select a model that corresponds to your Internet Camera, and IP address, Port No., Location, Camera User name, Camera Password for that camera. Then click **OK** to continue.

[Note]

- The default Port No. is 80, which is suitable for most situations.
- The Location is preset as CAM01, CAM02, etc.
- Camera User name, Camera Password and port number need to be entered to match the camera web configuration.

The screenshot shows a 'Camera Setting' dialog box with a blue title bar and a red close button. The dialog contains the following fields and controls:

- Model:** A dropdown menu showing 'DCS-900 ver. Ax'.
- IP Address:** An empty text input field.
- Port No:** A text input field containing '80'.
- Location:** A text input field containing 'CAM01'.
- Camera User Name:** A text input field containing 'admin'.
- Camera Password:** A text input field containing '*****'.
- Buttons:** 'OK' and 'Cancel' buttons at the bottom right.

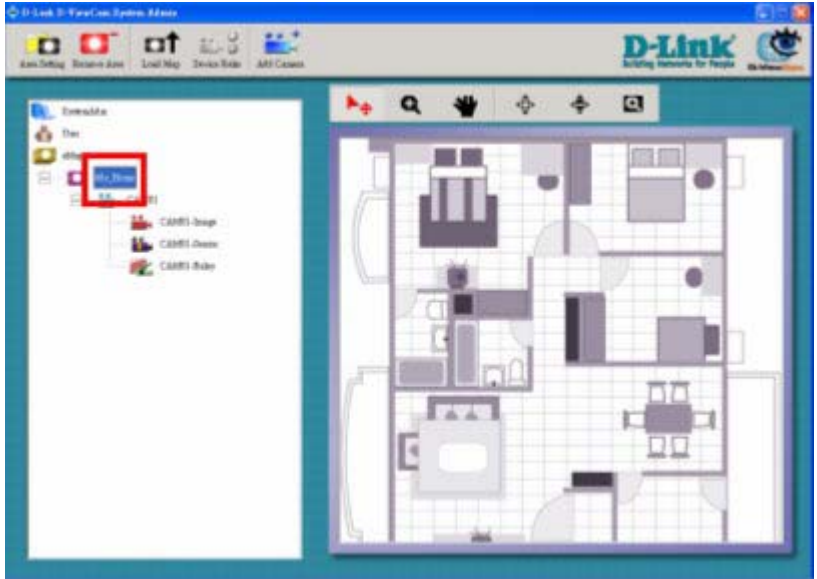

[Note]

You can also setup other D-Link cameras using the same steps described above.

2

Configuring your Camera with D-ViewCam (continued)

The camera is created and is shown under eMap (eMap\your area name\camera name).

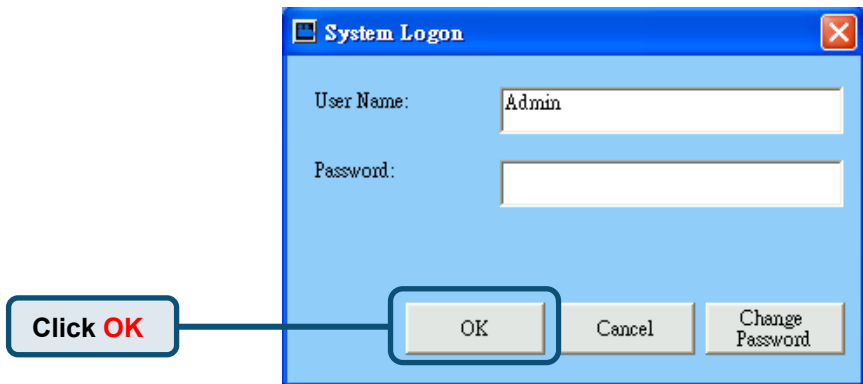

[Note]

You can drag the CAM01-Image icon to a desired location to your eMap on the right-hand of the screen; double click on the camera icon for video monitoring.

3

Monitor the Camera with D-ViewCam

Run Start > All Programs > D-Link D-ViewCam > Monitor

There is no password for Admin's account by default, please assign the Admin password by click on "Change Password."

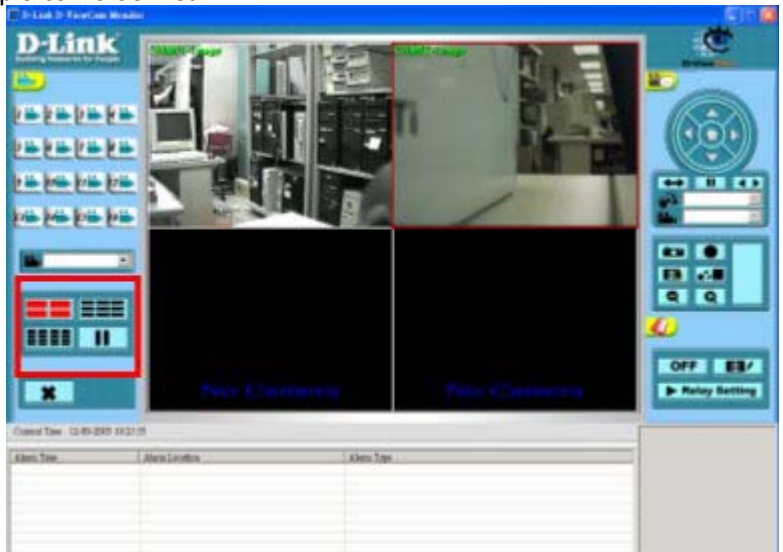

3

Monitoring your Camera with D-ViewCam (continued)

Now, you can see the image from the camera in the middle of the monitor screen. Congratulations! You have successfully configured your Internet Camera to your D-Link D-ViewCam.

Alternatively, you may click the **4-Split** icon (or the 9-Split or 16-Split icon) to display more than one streaming video on the screen. In order to do this, you need to finish configuring your multiple cameras first.

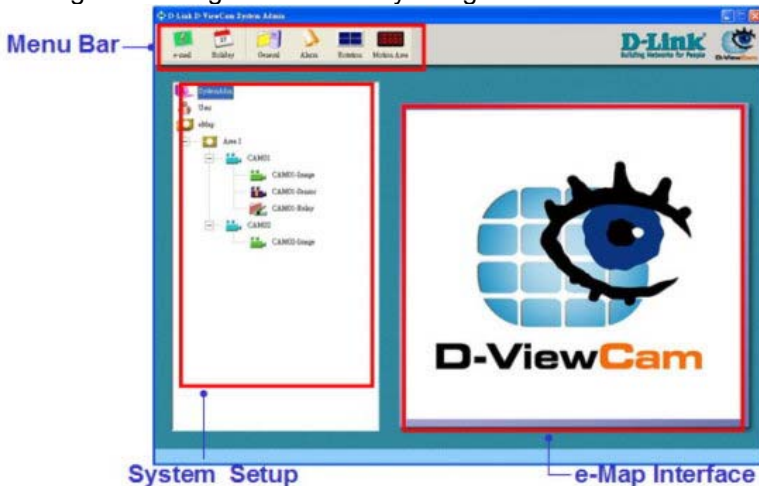

4

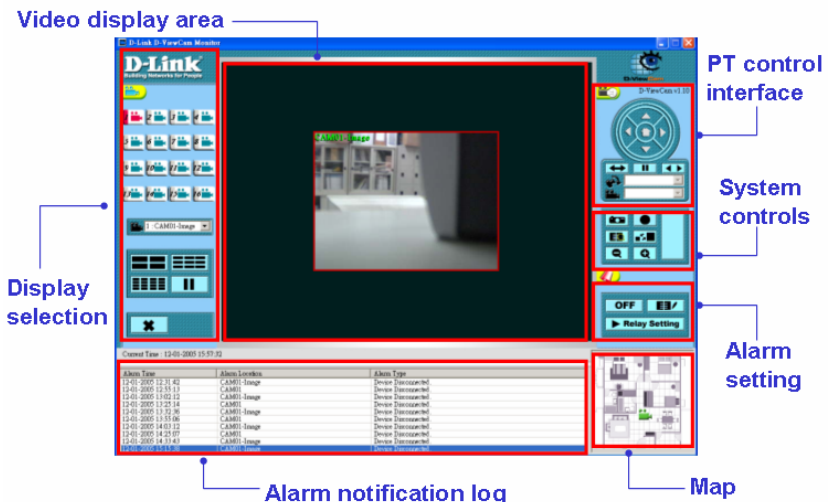

Screen Layout in Brief

Here is a brief description of the screen layout in the Administration and Monitor programs. Complete details can be found in the User's Manuals.

Administration Program: Configure cameras by using the Admin's Tools.

Monitor Program: Monitor the stream video and playback the recorded video.
