

D-Link®

Wi-Fi Baby Camera
DCS-825L

Quick Installation Guide

Before you get started...

- **Please save this guide for future reference.**
- Please read these instructions before using your product.
- Do not cover the ventilation holes.
- Do not cover this product with a blanket.
- Do not allow children to play with this product.
- Do not allow this product to get wet. Only use a dry cloth to clean it.
- Do not place this product near water or other liquids, such as near a sink, shower, or bathtub.
- Do not attempt to open or disassemble this product.
- **Cleaning:** Clean the camera with a dry cloth only; do not allow the camera to get wet. The sticky pad on the desktop base may be cleaned with water and air dried (do not use a cloth to dry it); make sure the base is completely dry before using it with the camera again.
- **Strangulation Hazard:** Keep this product and any attached cords at least 3 feet out of reach of a child. Keep any attached cords out of your baby's crib/cot.
- This product is not a replacement for responsible adult supervision.

1 Check to make sure your box has these items:

Wi-Fi Baby Camera
(DCS-825L)

Power adapter

Desktop base

Wall mount kit

Pink accent rings

If any of these items are missing from your packaging, contact your reseller.

- 2 Plug in your camera, and wait until the Power LED turns green.

You can use the included power adapter, or you can use a portable USB battery(not included) that can supply 5V / 2 A of power.

- 3 Download and run the free mydlink Baby Camera Monitor app to set up your camera.

Search for the free **mydlink Baby Camera Monitor** on the App Store or Google Play, then download and run the app. The app will guide you step by step through the setup process.

Mounting your camera (optional)

- Place the mounting base where you want to position the camera and use a pencil to mark the holes.
- Use a 6mm drill bit to drill both holes at least 30mm deep.
- Use a mallet to insert the wall anchors into the holes.
- Place the mounting base over the holes that are in the wall.
- Make sure to align the mounting base holes with the holes in the wall and then use the supplied screws to attach the mounting base to the surface of the wall.

- Place the base cover over the mounting base and screw the camera stem into the mounting base.

- Loosen the collar on the camera stem and then screw the camera stem into the bottom of the camera. Turn the securing wheel to ensure the connection to the camera is snug.

- Adjust the angle of the camera as desired and then tighten the collar on the camera stem to lock it in place.

Troubleshooting

The image is out of focus.

- You can turn the white focus ring on the front of the camera to adjust the focus.

How do I change the accent rings?

- Rotate the accent ring counterclockwise, then lift it off. Put the new accent ring on, then rotate it clockwise until it clicks into place.

How do I select a different lullaby?

- You can change the lullaby used in the mydlink Baby Camera Monitor app.

There's a white haze on my camera video when I use night vision mode.

- The night vision lights on the Wi-Fi Baby Camera may be reflecting off a nearby surface. Try repositioning and aiming the camera.

I started the mydlink Baby Camera Monitor app, but I can't find my camera.

- Make sure your camera is turned on and receiving power.
- If you have set up your camera before, make sure your smartphone or tablet is connected to the same router as your camera.
- If you are setting up a new camera or are using the camera away from home, make sure your smartphone or tablet is connected to the camera's Wi-Fi network.
- The Wi-Fi network name should be [myBabyCam-XXXX], where XXXX is a 4-digit code (the last 4 digits of your camera's MAC address).
- The WiFiPass is printed on a label on the bottom of your camera.
- You can also find your camera's Wi-Fi network details on a label attached to the back of this guide.
- If you still can't find your camera, reset your camera by pressing its reset button for 10 seconds while it is powered on.
