2 x Wall Anchors

Alignment Sticker

Quick Installation Guide

1 Download the App

Search for **mydlink** and download the app.

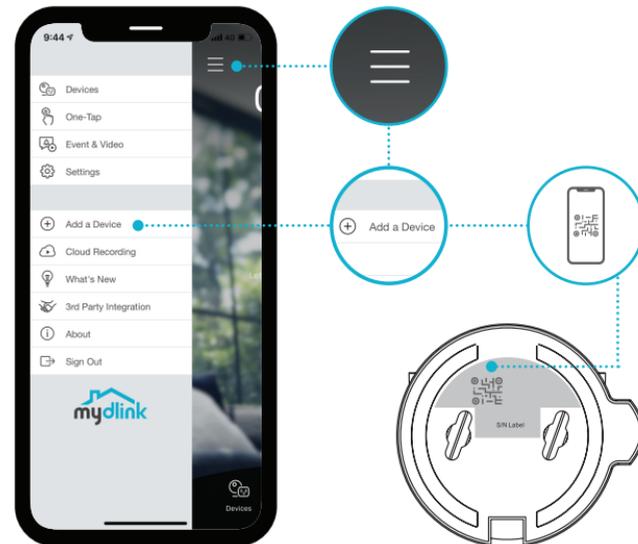

Note: This product is incompatible with other mydlink apps such as 'mydlink Home,' 'mydlink Lite', etc.

2 Log In

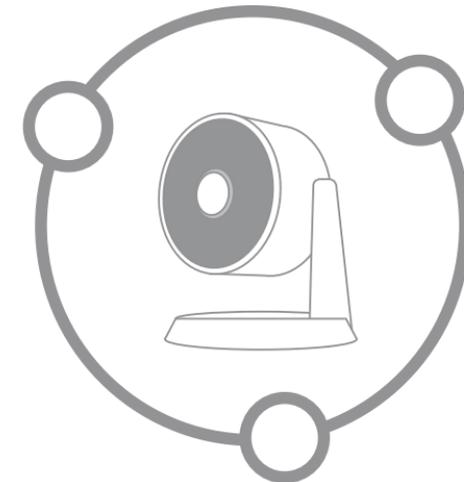

Sign In or **Sign Up** for a mydlink account. mydlink Lite users may sign in with the same account.

3 Add the Device

Tap the menu button ☰ then tap **Add a Device**. Scan the Setup Code on the device, then follow the app instructions.

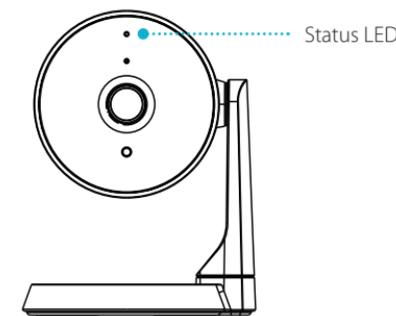

4 Set Up your Smart DIY Devices

Set up your Smart DIY devices with your Smart Hub nearby prior to mounting them.

For more information on mydlink Smart DIY visit dlink.com.au/SmartDIY

i Device Information

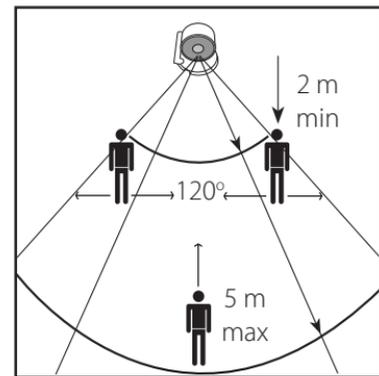

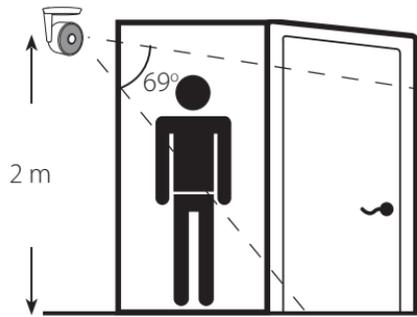

LED Behavior

- Connected to Wi-Fi and mydlink
- Powering on / Resetting
- Pairing with a **mydlink Smart DIY** device
- Ready for set up / Disconnected
- Upgrading firmware - do not power off

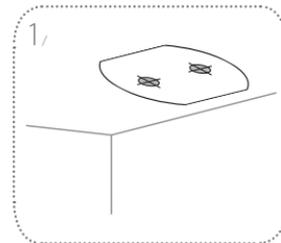

Placement

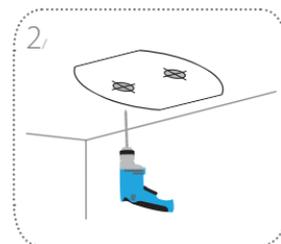

Place the camera at least 2 meters from the ground. The viewing distance for Person Detection is between 2 - 5 meters.

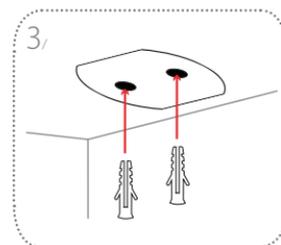

Mounting

Stick the alignment sticker where you would like to place the camera.

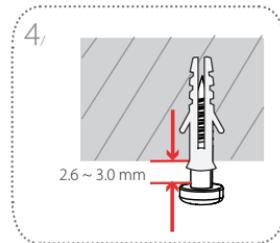

Use a 6 mm drill bit to drill two 3 mm deep holes as indicated on the alignment sticker.

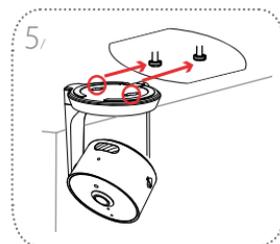

Hammer in the plastic wall anchors to support the screws.

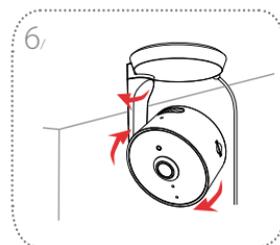

Mounting

Twist the screws into the anchors, leaving the tops of the screws exposed from the surface. Do not over tighten the screws.

Align the mounting holes on the bottom of the camera with the screws. Slide the camera down to lock it into place.

Twist the camera to your desired position. Go to the settings in the app and enable **Invert Image** if the image is up-side-down.

FAQ

What do I do if my device is not working properly?

Reset the device and reinstall it. To reset your device, use a paper clip to press and hold the recessed **Reset** button until the LED turns solid red.

During installation, ensure that:

- your router is connected to the Internet and has Wi-Fi enabled
- your mobile device is connected to your router Wi-Fi and has Bluetooth enabled
- your mydlink device is in range of your Wi-Fi network

Why is there a white haze when viewing in night vision mode?

When viewing in night vision mode, the IR lights on your camera may be reflecting off a nearby surface. Try repositioning your camera to avoid glare from IR LEDs.

How can I use voice commands to control my device?

The device will work with both Amazon Alexa and the Google Assistant. For setup instructions on these services, visit the following websites:

Alexa:

dlink.com/en/alexa

The Google Assistant:

dlink.com/en/google-assistant

Why is my microSD card not working/not supported?

The microSD card must be formatted into the correct file system (FAT32) before it can be used with this product. This can be done in the mydlink app by selecting the **Format** function in the storage menu under the Device settings.
