

Getting Started Guide for D-Link Vigilance Network Camera

PRODUCT QUICK INSTALLATION GUIDE

DCS-F4605EK

5MP Day & Night Outdoor Vandal-Proof
Dome PoE Network Camera

STEP 1.

Connect the camera to a PoE switch.

If you do not have a PoE switch, power the camera with a 12V DC power supply (not included).

If you have a Network Video Recorder (NVR), connect the camera to your NVR and follow the instructions for your NVR.

STEP 2.

Log into your camera by typing its IP address into a Web browser.

The camera's default setting is to obtain IP address automatically (DHCP). If DHCP server is not present the camera will use 192.168.0.120 address.

You can find out what IP address was assigned to the camera by checking your router's DHCP status or by running the *Tool for Cameras and NVR* software downloadable from [https:// www.dlink.com.au/Camera-Search](https://www.dlink.com.au/Camera-Search)

The screenshot shows a web browser window with the D-Link camera search tool. The interface includes a navigation sidebar on the left with icons for IP, Search, Settings, Add, and Delete. The main content area displays a table of discovered devices. At the top, there are status indicators: '3 Devices are searched' and '3 Login successful'. Below the table, there are buttons for 'Modify ip', 'Add device', and 'Delete device'.

Number	DeviceID	Port	IP	Status	ProductModel	SoftwareVersion	DeviceTime

STEP 3.

The default username is “admin” and password is “admin”.

It is recommended to change the default password to a strong password that includes lower and upper case letters, numbers and special symbols.

STEP 4. (Optional)

Add your camera to D-Link CCTV app.

Add your camera to DCMS+ Surveillance Software (free download):

<https://www.dlink.com.au/DCMS>

Add your camera to your NVR.
Please follow your NVR's setup guide.

Factory Reset

If you forgot the camera password or need to revert the camera to its factory settings:
Open the camera's cover and press the **Reset Button** for 5 seconds:
