How do I connect my android device to my wireless network?

How do I connect my android device to my wireless network?

Note: These steps are for Android ver. 4.1 (Jelly Bean)

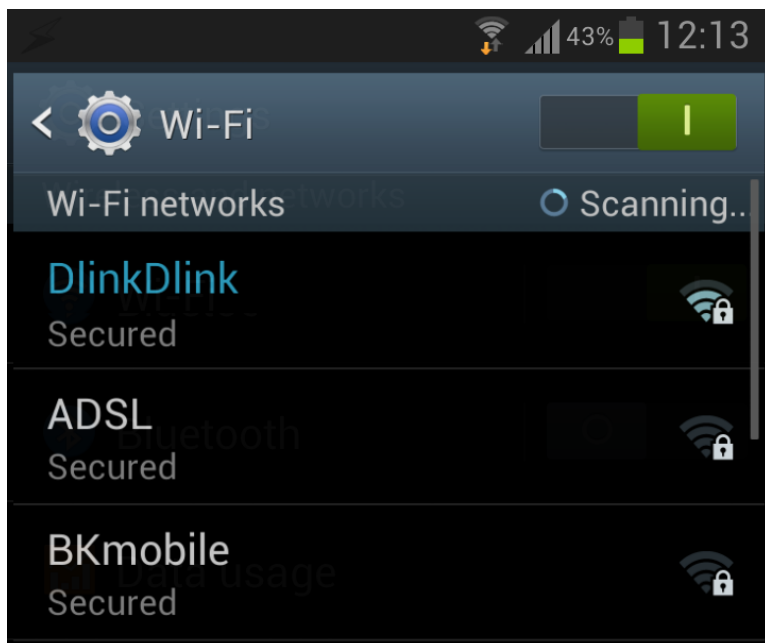

Step 1: On your Android device, select the Settings icon.

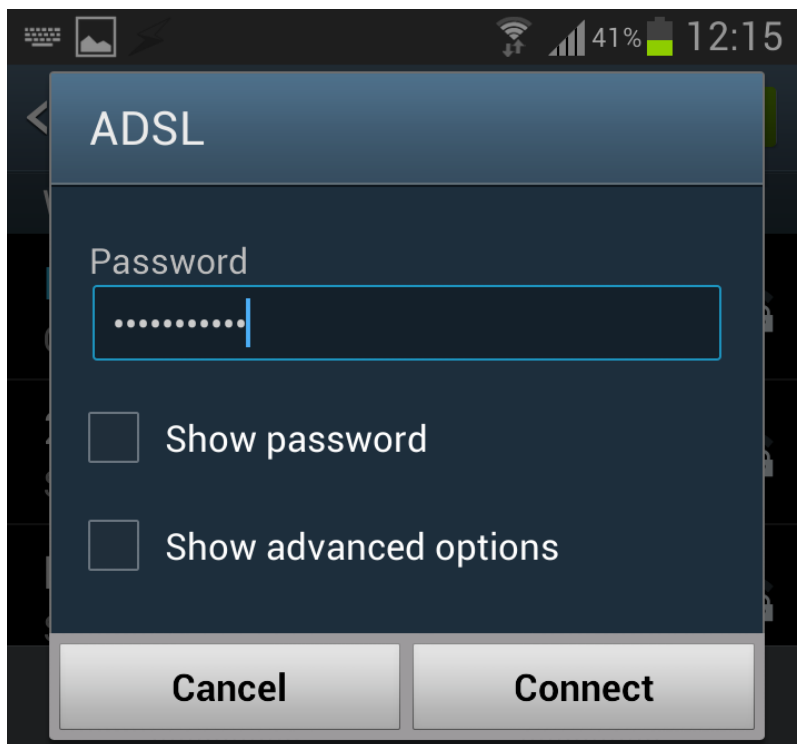

Step 2: Under Settings, choose Wi-Fi.

Step 3: Select the Wi-Fi network name you want to connect to:

Step 4: If the Wi-Fi network is password protected, type in your password and select Connect.

You should now be connected to your Wi-Fi network.
