D-Link

Configuration

There are two options to configure your modem router:

A. Web Browser - Use a web browser from your computer.

B. One-Touch app - Use a mobile device with the D-Link One-Touch

Refer to the D-Link One-Touch Setup section for more information.

Option A. Web Browser Setup

2 W

Open a web browser (e.g., Internet Explorer, Chrome, Firefox, or Safari) and enter the IP address of the router (http://192.168.1.1). The default username and pasword will be **admin** and **admin** respectively.

Note: If you want to configure your modem router from a wireless computer or mobile device, connect to the router wirelessly by going to your wireless utility on your device. The default Wi-Fi Networks are dlink-2870B-z and dlink-2870B5G-z. Select one and then continue to step 2.

dlink-2870B-z	

Once connected via wireless, click on the D-Link One-Touch icon from your mobile device, then click Start to continue. Please follow the onscreen instructions to complete the setup.

4. Once the Setup Complete screen appears, click **Finish**. You will then be asked if you wish to save the Profile card with all of the details that you have just configured, it is recommended to select **YES** for future use.

Note: "mydlink" is not configured using this app. If you wish to use this feature it will need to be setup via the advanced web interface of the DSL-2870B.

Congratulations! You have completed the modem router installation.

Troubleshooting

How do I connect my wireless devices to the DSL-2870B modem router?

- 1. Open your wireless network utility that displays available wireless networks.
- 2. Select the Wi-Fi Network name you assigned in the wizard and connect.

Note: If you did not run the setup wizard or you reset the router to its default settinas, refer to the label on the router for the default Wi-Fi Network Name and Wi-Fi Password

How do I change the wireless settings on the DSL-2870B modem router?

- 1. Open a web browser (e.g. Internet Explorer, Chrome, Firefox, or Safari) and enter the IP address of the router (http://192.168.1.1).
- 2. At the login screen, type in **admin** for the user name and enter the router password you created in the wizard (admin by default).
- 3. Go to Setup > Wireless Settings > Manual Wireless Network Setup to create a new Wi-Fi network name (SSID) and Wi-Fi password.

How do I reset the DSL-2870B modem router to factory default settings?

- 1. Ensure the device is powered on.
- 2. Press and hold the reset button on the rear of the device for 10 seconds.

Note

Resetting the router to factory default will erase the current configuration settings. To reconfigure your settings, log into the router using the and follow the Web Browser Setup Wizard or run the One-Touch Setup app
