WIRELESS N 600 DUAL BAND PCIe DESKTOP ADAPTER

TOTAL CONNECTIVITY

Wirelessly stream HD video, share files, and go online

HIGH PERFORMANCE

Upgrade to the latest 802.11n technology while staying compatible with 802.11b and 802.11g devices

WIDE COMPATIBILITY

Connects to any standard PCI Express (PCIe) slot

DUAL-BAND TECHNOLOGY

The D-Link Wireless N 600 Dual Band PCIe Desktop Adapter uses dual-band technology that transmits regular Internet traffic over the 2.4 GHz wireless band and transmits high-bandwidth multimedia traffic over the 5 GHz band. This allows you to browse the Internet and download files while smoothly streaming HD movies at the same time without interference. Only the 2.4GHz or 5GHz band can be used at any one time, they will not operate concurrently.

BETTER SPEEDS, BETTER COVERAGE

Connect to your wireless network with faster speeds and from farther distances with the Wireless N 600 Dual Band PCIe Desktop Adapter. With greatly improved wireless coverage and speed, you can enjoy faster and more reliable connections throughout your home.

THE BENEFITS OF PCI EXPRESS

PCI Express provides a high-bandwidth connection with superior performance over the legacy PCI interface, and allows you to connect the Wireless N 600 Dual Band PCIe Desktop Adapter to any PCIe slot in your computer, whether it is an x1, x4, x8, or x16 slot.

EASY TO SET UP, EASY TO USE

D-Link's Setup Wizard guides you step-by-step through the installation process to get you connected to your wireless network quickly and easily, even if you have little to no networking experience. The D-Link Wireless Manager is also included with this product to keep track of your most frequently accessed networks.

WHAT THIS PRODUCT DOES

The Wireless N 600 Dual Band PCIe Desktop Adapter connects your computer to a high-speed wireless network and provides a fast wireless connection with superior reception. Once connected, you can access your network's high-speed Internet connection while also getting secure access to shared photos, files, music, video, printers, and storage.
