10Gigabit XFP Module

The D-Link DEM-420X module is a 2-slot 10Gigabit XFP uplink card blade designed for use with D-Link's DXS-3326GSR and DXS-3350SR Gigabit switches. It slides into an open slot of these switches and provides 2 XFP slots for installation of 2 user-selectable 10Gigabit transceivers for full-duplex transmission on a single or multi-mode fiber network cable.

The DEM-420X is ideal for high-speed Gigabit switch cascading applications or for attachment of these switches on a very high-speed fiber backbone.
